Water Supply to Channapatna town.

From

The Deputy Commissioner Bangalore Dist

No S 386 Dated 7/10/13 Received 10/10/13

Diary No 2268	Enclos. 1	Spare Copies 2nd	Serial No 1

BRIEF ABSTRACT OF LETTER

With reference to G.O. no 3195-6/Mul 223-11-D22/10/1912 explains how the initial cost of the water supply project of Channapatna can be reduced to Rs 5,70,000 and adds that the maintenance charges can be working less than Rs 4600/-, encloses for favourable consideration Channapatna Municipal Council resolution in regard to financing the scheme

NOTES AND ORDERS

1 The above proposal is submitted in pursuance of the replying given to Representative Assembly subject no 587 of 1912. The financial aspect of the scheme has first to be considered before the engineering aspect is scrutinized. The project was first

Estimated at Rs 77,340 and now the Deputi Com explains in his present letter how it is possible to Cut the amount down to Rs 5 000/. without prejudice to the immediate requirements of the town
2 Towards this initial cost of Rs 57000/- or in round figures Rs 60000/- as they put it the Municipal Council want a loan of Rs 30000/- repayable in 20 yearly instalments with Savings bank interest and a grant-in-aid of Rs 30000/-
3 Towards the repayment of this loan with interest and towards meeting the annual recurring expenditure of Rs 4600/. the Municipal Council propose taking the Steps detailed in their resolution & these have to be examined one by one
(1) An increase of Rs 5000/- expected by Revising the house tax which was fixed years ago and by raising the Professional tax According to the budget Estimates for 1913-1914

GPB—60 000—25 9 13

G R S 12]

General and Revenue Secretariat | Mpl File No 184 of 1913-14

Serial No	
	the receipts expected under "A municipal rates and taxes 2 Taxes on buildings and lands" amount to Rs 2750 and under 9 motor taxes Rs 2100 in all Rs 4850 ie the taxes under these heads have thus to be more than doubled The practicability of this is a matter for ~~Govt~~ consideration by letting it appear
Budget under provision	(2) Rs 2000/- expected under Octroi, The estimated income under A-1 octroi for the current year is Rs 2910 an increase of Rs 2000/- is no small thing
Budget under provision	(3) Rs 1000/- expected under Slaughter house Here an import of as 4/- and a slaughtering fee of as 4/ on every animal brought for slaughter are proposed. By import is probably meant octroi which should strictly have been included under item 2
	(4) Mutton shop. An increase of Rs 500/- expected by doubling the present rate of 0-1-0 levied on every head ie by charging a slaughter house fee of one anna and another anna (probably as octi

Suppl File No 184 of 1913-14

Serial No.

On every animal

(5) An income of Rs 500/- expected by opening for the first time a toll gate on the Municipal road near the Railway Station a fee of one anna being levied on every loaded cart passing through the toll gate

Boat: how can this be allowed?

(6) An income of Rs 2000/ expected under water rate by increasing the house tax by one fourth its amount The expectation seems to be unreasonable in view of the fact that the receipts estimated under "Taxes on buildings and Lands" for 1913-14 amount only to Rs 2750/-

Buildings + vacant sites will pay "we might get one fourth of the house tax + Buildings Combined

4 Reasonably calculating, the increase expected under the various items maybe taken to be as follow —

Item (1) Rs 1500/- x

Item (2) Rs 500/-

Do (3) Rs 500/-

Do (4) Rs 500/-

Do (5) Rs 500/- ✓

Do (6) Rs 500/- x

Total Rs 4000/-

x Strike out these words

Budget estimates 1913-14

5. The total receipts expected under all heads for the year 1913-14 come to Rs 8105/- and still the increase of income expected by the scheme set forth in the municipal council resolution is put down at Rs 11000/-. Which seems ~~may be safely characterised~~ to be rather too high ~~as extravagant~~

6 Thus the utmost the Bhamapalm municipality could do seems to be to meet the annual recurring expenditure, the repayment of the loan now asked for being simply out of the question. The project of water supply would be a possibility only if the Government were to make a free gift of the entire initial outlay of Rs 60,000/- and even if the government is ~~was~~ prepared to make such a gift still it would be better policy to advise the Bhamapalm municipal council to work out their several schemes (except the long) water scheme of course) proposed by them to increase their rev

Bangalore District

mhl 184-18
80-1

To,

M. R. Srinivasaraghavar, Esquire, M.A
Secretary to the Government of Mysore
General and Revenue Departments
Bangalore

Sir,

Adverting to Correspondence ending with Government Proceedings No: 3195-6/mhl 223*-11-2 dated 22nd October 1912, ordering that the project of water supply to the town of Channapatna from the Kudinikatte should be finally dropped as the Municipality was neither able to pay for the Maintenance charges nor make any contribution towards the initial cost, I beg to suggest that the initial cost can safely be reduced to Rs 5,000/- without prejudice to the immediate requirement by adopting the following modifications:—

(1) Using a 10 H P oil engine instead

instead of a 15 H.P. fuel engine (a sum of Rs 300/- can be saved).

(2) Providing for the present only two jewel filters instead of three (a sum of Rs 450/- can be saved).

(3) Reducing the number of fountains from 286 to 220 (a sum of Rs 1500/- can be saved).

(d) Dispensing with Stoneware pipe connecting the Service Kattes (a sum of Rs 1150/- can be saved), and the maintenance charges can be nothing less than Rs 460/-.

2. A special meeting of the Municipal council has been held on 16th September 1913 to find ways and means to take up the scheme as modified and it has been resolved that the income of the Municipality is capable of considerable im-
-provement by revising house

tax

Cost, efficiently managing the octroi collections, and also by tapping other sources of revenue thereby expecting an increase of about Rs 11000/- per annum as per details in the copy of the Resolution.

3, The Government in their reply to Assam Representative Assembly Subject No 587 of 1912, have replied that in case the Municipality is able to bear the recurring charges the question of Government bearing the initial cost would be considered. But the municipal council are of opinion that Government should be approached to sanction Rs 30,000/- as a grant-in-aid to the municipality considering the welfare of the public and also to sanction a loan of Rs 30000/- to the Municipality Repayable in 20 equal instalments with Sarnap Bank

bank interest

4. In these circumstances I request the present proposals may be favourably considered by Government and early orders passed in the matter.

I have the honor to be,
Sir,
Your most obedient Servant
sd/ Illegible
Assistant Commissioner
for Deputy Commissioner
sd/ Bangalore
absent from Station
